Optimists Seek Use Of Old Junior High Building As Site For Junior Club

By MRS. HAL DEATON

Members of the Mooresville Optimist Club, with complete recreational facilities, housed in the old Mooresville Junior High School building on West Moore Avenue.

And, members of the Mooresville Board of Education are ready to go along with the idea provided several legal technicalities can be worked out to the satisfaction of all involved.

They would attend regular meetings and Weatherman explained how speakers with influence—firemen, policemen, sports figures, and persons with proper appeal—would be featured at each meeting.

The board's reaction was to check the legality of leasing the old junior high building for such use and to check as quickly as possible.

Meeting with the Mooresville Board of Education at its session last Wednesday evening, Charlie Weatherman, Optimist Club representative, explained to the board the

order and gave the devotional using Romans 12. Mrs. Maggie Miller presented the study on "Between Two Worlds." Mrs. Cecil Blackwelder, secretary, read the minutes. After a brief business session the meeting closed with a prayer.

Boosters Club Sponsoring Bluegrass Show

Sponsored by the Mooresville Boosters Club, a Bluegrass Show will be held on Saturday, August 25, at 7:45 p.m. at the Lake Norman Music Hall at

Terrell. Featured on the program will be the "The Shendish Valley Cut-Ups," one of the country's top bluegrass groups, and

any contribution to a solution to the energy problem could be made by wind power in the next three years, but they indicated wind could play an important role later.

The National Science Foundation has budgeted more than \$1,000,000 to study wind power beginning July 1.

Although windmills are not used currently to generate electricity for commercial use in the United States, some scientists think various areas of the country are well suited for wind power.

Scientists meeting in Washington said it was unlikely
