**WHERE OTHERS HAVE THEIR BRANCHES, WE HAVE OUR ROOTS.**

Today's banking picture leaves a lot to be desired. The big financial networks have policies for everyone... which means the real decision makers are often hundreds of miles away. While you're looking for personal service... big banks' employees are climbing the corporate ladder. Their main concern? Personal success. At our Independent Bank things are different. We have our roots firmly planted in the community we serve. When you need to see a decision maker, you see a neighbor who's responsive to the local economic climate and has the responsibility for making your money work here... in our community. If your bank gives you the feeling you're out on a limb... maybe it's time to bank the Independent Way.
