LEGAL NOTICE

NOTICE
COLIFORM BACTERIA FOUND IN DRINKING WATER SAMPLE DURING JUNE 1987

California bacteria are environmental bacteria which originate in the soil and intestinal tract of warm blooded animals, including humans. The presence of coliform bacteria in drinking water indicates that some contamination has occurred.

In an attempt to correct the cause of the contamination we have done the following:

We have disinfected the water system
We have flushed the water lines
We have installed continuous disinfection equipment
Check samples submitted on Jan., Feb., March, April, May show the water to be free of coliform bacteria

If you have any questions regarding this notice, please contact:
