With Open Arms

"Hello, my child. I see you each day as you walk past my house. At times, your pace slows, as if you might decide to stop and come in.

I hope that one day soon you will decide to visit me. My house is a quiet and peaceful haven. It is warm and inviting here. Stained glass windows are lit with the sun by day and by lamp-light at night.

Many of my children visit my house each Sabbath. The singing of hymns, messages of inspiration and guidance, and prayers of praise and thanksgiving fill the air with hope and joy. I shall be waiting and watching for you, my child.

Accept our Father's invitation this week. God's doors, and His arms, are always open wide with love for us, His children.

"Come to Me, all who are weary and heavy-laden, and I will give you rest." Matt. 11:28

Pointers: Save time, money, frustration

Auto maintenance advice takes the heat out of summer driving

Spring is the time to tune up your car for warm weather months ahead

Learn how to talk to the person who repairs your car, and you'll save a lot of time, money and frustration. When pulling a lead?

1. When is the best time to tune up your car? The best time is when you're not in a hurry. If you're in a hurry, you'll be more likely to get a quick fix than a thorough tune-up.

2. What symptoms are present? Steam coming from the hood? Oil dripping from the engine? A knocking or rattling sound? A bad smell? A bad taste? A bad feeling?

3. How long has this problem been occurring, and is it new worse? When did you first notice it? When did it get worse? When did it stop? When did it start again? When did it stop again? When did it start again?

4. What have you tried to fix it yourself? When did you try it? When did it stop? When did it start again? When did it stop again? When did it start again?

5. When was the last time the cooling system was serviced? Has the system been flushed? Has the radiator been cleaned? Has the water pump been replaced? Has the thermostat been replaced? Has the fan belt been replaced? Has the timing belt been replaced? Has the spark plugs been replaced? Has the oil been changed? Has the filter been changed? Has the air filter been changed? Has the wiper blades been changed? Has the brake pads been changed? Has the brake fluid been changed? Has the transmission fluid been changed? Has the steering fluid been changed? Has the power steering fluid been changed? Has the coolant been changed? Has the antifreeze been changed? Has the battery been tested? Has the battery been charged? Has the battery been replaced? Has the alternator been tested? Has the alternator been replaced? Has the serpentine belt been tested? Has the serpentine belt been replaced? Has the timing belt been tested? Has the timing belt been replaced? Has the water pump been tested? Has the water pump been replaced? Has the thermostat been tested? Has the thermostat been replaced? Has the fan belt been tested? Has the fan belt been replaced? Has the spark plugs been tested? Has the spark plugs been replaced? Has the oil been tested? Has the oil been replaced? Has the filter been tested?
