

## *April Pasture Planning Month For Beef Cattle Management*

If you owe tax, be sure you are signed and made out for the correct amount. It's a good idea to write your social security number on your check.

If you are simply unprepared to file a carefully prepared and documented tax return, the worst mistake you can make is failing to file for an extension. You can request a filing extension by submitting Form 4868 by April 15, 1991. The one-page form requires you to estimate your tax liability for 1990 and pay any tax due. B

submitting the form, you can push the filing deadline to August 15, thus gaining an additional four months to prepare and file your tax return.

Whether you meet the April 15 or August 15 deadline, be sure to carefully review your tax return before mailing it — that last-minute check-up can save you the time and trouble associated with corresponding with the Internal Revenue Service.

**OPTOMETRIC  
CONTACT LENS CENTER**

normally requires 5 to 7 pounds of creep feed to produce one pound of gain.

**For spring calving, Miller urges**

catlemen to maintain nutrition intake to support milk production and re-breeding performance. Supplemental energy or protein may be needed if forage supplies are limited. Sufficient minerals, especially phosphorus are critical during the breeding season. Calves should be dehorned and castrated at an early age and non-replacement animals should be implanted with a growth stimulating.

Mitchell Community College - Mooresville Center will offer a course in "Infant and Child Care CPR" beginning April 9 and ending April 19. The course fee will be collected at the first meeting. Also, the student will be required to pay a dollar for certification cards through the American Red Cross. Students interested in this course should call 843-688-2222.

Mitchell Community College  
Mooresville Center will offer  
course titled "Woodworking  
the Home Hobbyist" beginn

April 8 and ending May 27.  
This course will be taught Monday evenings at the Moonville Senior High School workshop, from 6:30 to 9:30.  
The course will be taught by Herold Newton, who has extensive experience in woodwork. There are still openings available for those interested.  
The course will deal with proper use of hand tools and power equipment used in wood working. Emphasis will be placed on the proper use of equipment. Students will plan, select materials for and construct project of their choice.  
The registration fee will be \$1.00 and will be collected at the class meeting. Students 65 and older will not be required to pay the registration fee. To reserve space in the class, please call 663-1923.
