Area Social Security Personnel Will Provide Answers, Services

Curious about how much your Social Security benefit will be when you retire? Need a Social Security number for your child? Changing your name because of marriage or divorce?

To get any of this information or obtain these services, free of charge, all you have to do is contact Social Security. There's no need to pay for these services. Many times, people receive advertisements from companies that offer to assist them in their dealings with Social Security — for a fee. But there's absolutely no reason to pay a third party for services that the Social Security Administration (SSA) offers for free!

Advertisements from these companies often sound as if they're offering some exclusive service that SSA doesn't provide or that they have special access or "secret information" that the public should pay for. Some companies make it sound as if they can expedite specific services.

These claims are absolutely false. In reality, these companies have to come to SSA to get the information. They just act as a go-between, which adds an extra step to the process and slows it down.

So, why do people pay for services they can obtain free? Some people just don't realize that SSA offers the service they need. And sometimes, people get official-looking mailings and think they've received soemthing from Social Security.

How can you avoid paying for a serve that Social Security offers for free? There's a simple rule of thumb you can follows: If you need help with a Social Security question or problem, contact SSA directly. And, if you receive an official-looking letter offering to supply a Social Security service for a fee-it didn't come from us! Contact Social Security instead of writing a check. You may save yourself time and money.

If you have questions or want to file a claim for benefits, call or write your local Social Security office. In Statesville or Mooresville call toll free 1-800-234-5772.

NC Prison Population Increasing

With the deadline for meeting the requirements of the Emergency Prison Population Stabilization Act just one month away, the state's population of prisoners, probationers and parolees continue to increase.

According to figures released by the department's Office of Research and Planning, the average daily prison population for the state's 91 prisons reached the record level of 19,098 in March 1991. That exceeds the 19,082 in February 1991 and 18,111 in March 1990.

The prison population remains above the 19,000 mark despite the efforts of the state Parole Commission to comply with the Emergency Prison Population Stabilization Act, or Prison Cap.

A Prison Cap emergency was triggered February 16 when the population of the state's prisons remained above 18,937 for 15 consecutive days. Under the cap, the Parole Commission is required to reduced the prison population below 18,744 in 90 days, or in this case by May 17.

The state's probation and parole rolls are also getting longer. In February 1991, the latest month for which figures are available, the Division of Adult Probation and Parole (DAPP) had 91,165 offenders under supervision.

DAPP supervised 9,883 parolees during February 1991. While that's a slight increase over the 9,743 DAPP had under supervision in January 1991, it's a 32 percent increase over the 7,479 supervised in February 1990.

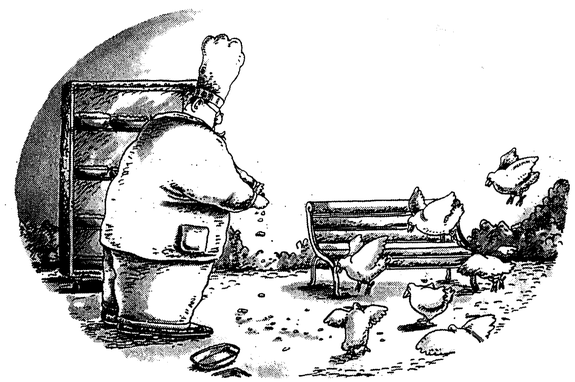
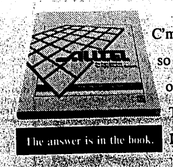
Baker decides to invent new soufflé recipe and misses deadline to run ad in ALLTEL Yellow Pages.



Baker now attempts to seek out new customers on his own.



C'mon, did you think milk was the only thing that has an expiration date? Unfortunately, so does the chance to advertise in the ALLTEL Yellow Pages. Don't miss the opportunity to place an ad in the book people look to 24 hours a day, 365 days a year. The book with lots of headings. So you can pick the perfect one for you. But hurry. If you don't have an ad in our book, you'll feel worse than a sunken soufflé.

Q: I saw "The Untouchables" with Sean Connery on television recently. TV is the only way I see movies these days. My husband and I are wondering is if Robert DeNiro really gained weight to play the part of Al Capone, or if he wore makeup and padding. Else L.

A: DeNiro gained over 20 pounds — some say it was closer to 30 — to do the role. He felt padding would have been an impediment to the portrayal. He started taking the weight off only after he knew the editing on the film would not require any more scenes.
