

Duke Power State Park Opening Scheduled For Around June 1

Located on Lake Norman in the East Monro section of Fredell county, the Duke Power State Park will open to the public around June 1, 1964.

Thomas C. Ellis, superintendent of the state park system, made the announcement this week.

Construction and grading are going full blast in the park, located in Fredell County on the eastern shore of Lake Norman. Lake Norman was formed when Duke Power Co. dammed the Catawba River with the Cowan's Ford Dam and hydro-electric power plant.

Duke Power Co. gave the state 1,300 acres for a state park, and

County Tax Collector

Will Be Here Thursday

Thurston Houston, county tax collector, will be in Mooresville at the Municipal Building today (Thursday) for the purpose of collecting county taxes.

He will have the 1963 tax books for Battleground, Coddle Creek, and Davidson Townships. He will be in Mooresville from 10 a. m. until 4 p. m.

Which type Chevrolet pickup do you need?

Chevrolet now makes four different types, each with its own distinct advantages. Whichever one you buy will be a lot more truck than your money bought the last time!

FLEETSIDE. Based on sales, the best liked pickup in the world. Outstanding feature is its large body extending clear out over the wheels. Two body sizes. Two wheel-bases. Best riding truck, by far, with coil springs all around and independent rear suspension. Cab and body have double-wall construction. Chevrolet Fleetside—best for all-around use.

STEPSIDE. Has flat interior body walls and convenient side steps between cab and rear fenders. Comes in same two sizes as the Fleetside plus one bigger size. Big model has heavier frame, 4-speed springs all around and independent rear suspension for maximum payloads. Standard engine is 230-cu.-in. Six. A 292 Six or 283 V8 is available at extra cost.

RAMPIDE. Nobody else makes a pickup exactly like this one with a ramp at the side. The ramp makes loading easy because of its 16-inch rise. Truck also has a conventional tailgate. Body and frame floor assembly are very rigid because they are welded together. Has larger 95-hp air-cooled engine this year. Independent coil spring suspension all around.

EL CAMINO. If you want a pickup as good looking as any car on the road, this is the one! It can work hard, and look like a million dollars doing it—the only pickup in the world with Body by Fisher! You can order an El Camino as plain or as fancy as you wish: bucket seats, air conditioning, 4-speed transmission, power brakes are some of its extra-cost options.

CHEVROLET TRUCKS

Telephone your Chevrolet dealer about any type of truck!

Pvt. Thomas A. Jacques
Mooresville Resident

Jacques Takes Army Basic At Fort Jackson

Pvt. Thomas A. Jacques, son of Mr. and Mrs. Homer Jacques of Mooresville, is at Fort Jackson, S. C., where he has been assigned to Company B, 10th Battalion, 8th Training Regiment of the U. S. Army Training Center, Infantry.

During his basic training he will be introduced to a wide variety of infantry skills, along with intensive physical conditioning. He will attend classes in the traditions of the service, character guidance, and the role of the Army in the world today. Many of his instructors are combat veterans of World War II and the Korean conflict.

Fort Jackson uses the U. S. Army's TRAINING method of teaching rifle marksmanship. Simulating actual battle conditions, TRAINING enables the soldier to become a better rifleman in less time. Under the program, the trainee fires at pop-up targets at unknown distances on terrain which duplicates combat areas.

Other highlights of his intensive basic training schedule include squad tactics, bayonet drill, hand-to-hand combat, and a night program against an "aggressor" force. He will also crawl the infiltration course while live machine-gun fire pops overhead.

During his seven-week training, he lives in the field under conditions similar to a combat zone. Here, moving over rough terrain, he has a chance to participate in realistic combat situations and to apply his newly acquired skills.

Basic training is climaxed by a graduation review before the commanding general of Fort Jackson. Outstanding performers are recognized in a ceremony that is open to parents and invited guests.

'Learn While You Earn' Finds New Meaning In AF

One of the main inducements for voluntary enlistment into the armed forces has long been the opportunity to "learn while you earn."

By this, it was meant that, from the very first day in service, a young man will be drawing a full salary while obtaining technical training in a needed skill. After an enlistment in the service, many young men find that the training and experience received while in uniform is of great benefit to them when seeking civilian employment.

While this is still no less true today than it has always been, the U. S. Air Force has added yet a new dimension to the old slogan of "Learn While You Earn."

Local U. S. Air Force Recruiting Sergeant Arthur A. Hoyle points to the current Air Force active-duty education programs as an example of this. Here too, while the old correspondence courses remain, there are many new programs that have only recently been developed. Under "Operation Bootstrap," for example, airmen study on base in their spare time part time part of the year and then attend the summer semester of the college of their choice on a full-time basis. The "Airman Education and Commissioning Program" offers airmen the opportunity to attend college full-time on a year-round basis and gain a commission as an officer as well. In short, the Air Force has coupled formal education to technical training to add new meaning to the old opportunity to earn and learn.

Sergeant Hoyle has all the facts at the U. S. Air Force Recruiting Office, at the post office building in Statesville each Monday and Friday. The main Air Force office is located in the post office in Hickory.

Lemon Pie... Hot Dogs Good

What Is Your Favorite Food?

JAMES SHERRILL, Cascade Weaving Co. Route 4
ELAINE SHERRILL, Student, 258 East McNeely
MARY CATHERINE BURGESS, Student, 405 Fieldstone
BILL WALTON, Railway Agent, Burlington

THE PEOPLE SPEAK:

Food—mention it and it's a sure bet everyone in the sound of the voice will sit up and take notice.

Yes, food is an attention-getting matter—whether the person is a calorie counter or one of those lucky ones who can eat anything and everything without fear of adding poundage.

Food should be an important and attention-getting matter because, without it, we couldn't maintain our strength—couldn't live.

In view of all this, the Mooresville Tribune's roving reporter asked the following question this week as he went about the task of preparing one of the paper's weekly features—The People Speak:

What is your favorite food?

The answers of the four on-the-streets questioned, in full, were as follows:

JAMES SHERRILL, Cascade Weaving Company, route 4: "Steak is about the best... it's the only thing I can think of just now when I think of which food I like best."

ELAINE SHERRILL, student, 258 East McNeely avenue: "Lemon pie. I like that flavor."

MARY CATHERINE BURGESS, student, 405 Fieldstone Road: "Hot dogs, all the way. I just love them."

BILL WALTON, railway agent, Burlington: "I really don't know. I like all of it, but I'd say I like shrimp the best."
