DOCTORS REMOVE 144 ITEMS LODGED IN MAN'S STOMACH

An account of an Irishman, with a strange appetite for undigestible "food" has been reported by 2 doctors in the British Medical Journal.

The doctors said they had removed 144 objects, including 126 pieces of bed spring, from the stomach of a 37-year-old Irishman. The other odds and ends included 2 spoon handles, coins, a rosary bead, and a piece of shirt.

"The patient," said the report, "had an uneventful recovery." In layman's language, this means he got well.

The Irishman, who was not identified, was admitted to a hospital at Cork, Ireland. The doctors, Michael J. Whelan, of Cork, and John S. Kennedy, of London, reported that an X-ray revealed a "large mass of metal objects" in the stomach, and an operation was performed.

"The stomach wall appeared healthy apart from a small benign ulcer," said the doctors, who did not explain why the man swallowed the objects.

Mrs. L. W. Shiplock, of China Grove, is a treatment patient.

Mrs. A. M. Fisher continues to receive treatment.

Mrs. R. R. Stamper, of Kannapolis, is responding to treatment.

Mooreville Students Are Cited For Gifts To CARE

For the second year in a row, students of the schools of Mooresville have looked beyond the printed pages of their school texts. They have sought to translate into meaningful action their knowledge and concern for the tremendous—almost overwhelming—needs and problems which face those millions of people in overseas countries who live in poverty, ignorance, disease, and despair.

The students of Mooresville Senior and Junior High Schools, South School, Park View School and the Key Club of Senior High contributed over \$700 to CARE, the well known voluntary, international relief and development agency.

Their concern for others will bring a message of friendship and renewed hope for the future to the children of two orphanages in Korea and to thousands of school-age children in Panama.

In some of the isolated, rural areas, and in the urban slum sections of Panama, school children must use makeshift implements—because local school boards and the school children's parents cannot afford even basic school supplies for them.

This fund drive was endorsed by scraps of paper from newspapers or magazines and broken pencils—because local school boards and the school children's parents cannot afford even basic school supplies for them.

The money contributed by students of Senior High, Junior High and South School will enable CARE to completely equip five elementary schools in rural Panama, with a total of 25 classrooms, with the basic school supplies that are so essential to instruction, and without which learning is impossible and teaching is a frustrating and hopeless task.

These rural schools are being built as part of a project to build a total of 74 elementary schools in rural Panama. It is supported by the Panamanian Government, the U. S. Government's Alliance for Progress, and CARE.

The \$121 donated by students of Park View School will be used to provide blankets, food, and clothing to the children of two Korean orphanages—The Star of the Sea Children's Home in Inchon and the Saint Paul's Orphanage in Seoul. By this unselfish act, the students of Park View demonstrated in their lives, and brought into the lives of these orphans, the true spirit of this Christmas season.

Miss Cora Freeze of Junior High School coordinated the drive.

Dr. Roland Morgan, superintendent of schools, and supported by the faculty and administration of the school system.

YOUTH LEADERS—These youngsters were chosen recently to direct youth activities at Second Presbyterian Church. Larry Dyson, left, was elected president of the church's new Youth Council; Judy Meadows was named to serve as secretary; and Tim Roach was picked for the post of vice president. The council will assist in planning church youth work. Mrs. H. C. Cobb is serving with the council as coordinator of youth activities.

Greyhounds Hand Devils Two Losses

Senior High's basketballers took a double licking Tuesday night at the hands of Statesville's Greyhounds.

The Blue Devil girls lost by a four-point margin, 26-22, but the boys were clobbered in the final quarter to drop their second game of the campaign 68-46.

Rene Gibson led the local lasses in the scoring department, tallying 15 points. Sandy Torrence and Sherry Sherrill added four each.

For the homecoming Statesville girls, Kathy Murdock led with nine points, followed by Judy Kyles with seven markers.

Mooreville's Tommy Deal led all scoring in the boys' contest, pouring in 15. Deal's running mate at guard, Mike Robinson, posted 10 points, as did forward Tim Roach.

For the Greyhounds, Bill Guy accounted for 14 points and he played a strong game on the backboards. Ken Sides tossed 12 points through the nets.

Blue Devil Coach Harlan Bowman, understandably dejected, said inability to rebound and to control the ball cost his squad the battle.

"We got only 13 rebounds the entire game," Bowman explained, "and we lost the ball far too often. It must be a strong offensive effort."

Youth Council Formed At Second Presbyterian

The young people of Second Presbyterian Church have named their 1964 Youth Council to plan and carry out the church's youth program. It was announced by Mrs. H. C. Cobb Jr., coordinator of youth activities.

Elected to the presidency of the council was Larry Dyson, 17-year-old senior at Mooresville High School. To serve with him will be Tim Roach, vice-president, and Judy Meadows, secretary.

Other Senior High School members of the council are David Westmoreland, Linda Gardner, and Pat Vanderford.

Junior High School people elected to the council are Monte Harrington, Pam Westmoreland, Brenda Canipe, and Jeannie Talbert.

Adult advisors of the Youth Council are Mrs. David Owens and Mrs. Carlin Gardner (Senior High) and Mrs. Art Roach, Mrs. Sam Cashion, and Mrs. Charles Morris (Junior High).

As approved by the session of the church, the Youth Council's area of responsibility is the oversight of all youth activities, the planning and effective carrying out of all youth programs and parties.

Larry Dyson's first appointment as chairman of the planning committee composed of the following: entertainment—Mrs. Grady Shoe, Mrs. Hugh Sloop and Mrs. Ted Deviney and refreshments—Mrs. Charles Goodman, Mrs. Bob Upright, and Mrs. Harold Overcash.

Teachers of the class are Mrs. Clarence Smith and Mrs. Phil Mott.

The Overcash home was decorated for the holiday season and fruit cake and coffee were served.

NEW CHEVELLE! BY CHEVROLET

The kind of car you'd expect from one of Chevy's great highway performers. Come on down and drive it.

The kind of fresh styling—inside and out—that makes it the year's smartest surprise. Come down and stay at it.

Now—Chevy spirit in a new kind of car!

We built this one to do more than just stand around looking beautiful. Held its weight down in the 3,000-pound range. Then built four lusty engines—two sixes and two V8's—with output all the way up to 200 horses! And if that makes you think this is one frisky car, you've got the right idea.

You've also got a roomy car here. Yet its 115-inch wheelbase keeps it highly maneuverable in traffic and very easy to park.

With its Pull Coil suspension, it's got a ride that reminds you of the Jet-smooth kind the way it muffles noise and cushions bumps.

And the fine hand of Body by Fisher craftsmen shows up beneath this one's suave good looks, too.

Sound good? There's more. Like the fact that Chevelle comes in three series with eleven models—convertibles, sport coupes, sedans, wagons, even Super Sport models with front bucket seats. Like the fact that (and see if this isn't one of the nicest surprises of all) the new Chevelle comes at an easy-to-take price! Like to hear more? The listening's wonderful at your Chevrolet dealer's—and so's the driving.

See five entirely different kinds of cars at your Chevrolet Showroom—CHEVROLET, CHEVELLE, CHEVY II, CORVAIR & CORVETTE
