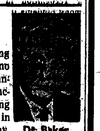
NERVOUSNESS



Dr. Baker

There is no one condition today affecting as many people as nervousness and there is no condition the results are more favorable under Chiropractic care. The Doctor of Chiropractic is a nerve specialist. He has put in long hours studying the nervous system both in disease and health and works with it each day.

If you have such symptoms as crying, choking, pressure in the head, headaches, uneasy feeling, twitching of the muscles, cold hands and feet, cold perspiration, numbness, see your local chiropractor as did the following case:

Case 1106, middle aged lady, fearful of nervous breakdown. "I'm just a bundle of nerves. My heart races like mad and at times just pounds out of my chest," she said. She had no energy, spells of complete exhaustion, night sweats, and dizzy spells. Constant tension pains in her neck, left shoulder and arm kept her awake nights. This lady turned to chiropractic as thousands of others are doing today. Her miserable symptoms vanished as normal functions returned. She stays healthy by a regular monthly check-up as hundreds of other healthy patients do.

If you, my friend, have any health problem consult your local Chiropractor today.
